

Radio Control Aeroplane Flying

Date: Saturday October 29th
Location: Ottawa Radio Control Club, West End Field
Cost: \$0
Drop-Off: 10:00am (full uniform, no sash)
Pick-up: 12:00pm – 1:00pm

All third year Cubs, that is those who will be aged ten by the end of December 2005, are eligible for our radio control aeroplane flying event. We have arranged with the Ottawa Radio Control Club (www.ottawarcclub.ca) for these Cubs to be given instruction on flying radio control aircraft and the opportunity to actually fly the aircraft. The Cubs will use a “buddy box” which means that will have control over the aircraft, but the supervising instructor can intervene at any time using their transmitter. Parents are welcome to stay and watch.

Please return the attached consent form by October 19th.
